## Skin Care

Good skin health for men and women can be dramatically improved with a skin rejuvenation program outlined by *Enhanced Aesthetics*. The best individual program can be formulated after an in-office consultation to determine your skin type, skin concerns and lifestyle.

We believe the most effective regimens incorporate an aggressive but non-invasive in-office treatment program combined with an at-home maintenance skin care system. The *Enhanced Aesthetics* photorejuvenation program has many facets that may be added or subtracted for your individual needs.

Available to us are **NewApeel DiamondTone™ Microdermabrasion**, **VascuLight**, either alone or with **WrinkleLite**, and **Laxity Vector Therapy** for wrinkles or sagging skin problems. By stimulating collagen growth many favorably enhanced changes may be made to help us achieve your goals.

At *Enhanced Aesthetics* we understand that there are many skin care choices available to you, and that you may be comfortable with products you have used for years. The skin care choices we offer are designed to be more therapeutic and more efficacious than those sold at department stores and drug stores, and will greatly enhance and maintain the results that you receive from our treatments.

Beauty is a total body concept. In many cases we feel certain techniques and products fit together to give the best rejuvenation from head to toe—as well as fit your individual skin care needs and budget. Beauty should above all else be straightforward and simple—a concept at *Enhanced Aesthetics* we strongly believe in and practice in our synergistic approach to your skin care and our services.

Skincare products offered include *Enhanced Aesthetics Private Label* line, as well as **Skin Medica**, **Glytone (Wellskin & Avene)**, **Topix**, **Murad**, **Dermik**, **Biopelle**, **Kinerase**, and **LaRoche-Posay**. In many cases, a choice may be made for Botox® and/or dermal fillers.

For people with particular concerns regarding sun protection and sunscreens please visit our [Sun Solutions](#) page.
